# NYSCOPBA SPECIFIED DISEASE INSURANCE

## What is Specified Disease Insurance?

Specified Disease insurance is an affordable way to make up the difference between what your medical insurance covers and what you'd owe out of pocket if you or a family Member were diagnosed with a covered specified disease. It pays a lump-sum benefit directly to you upon diagnosis of a covered specified disease regardless of your treatment costs or what's covered by your medical insurance. Your benefit could be used for things such as deductible, copays, childcare, certain medications, time away from work, alternative treatments and a special diet.

### Covered Conditions:

Diagnosis and recommendation must occur after your coverage becomes effective.

### Receive 100 percent of your coverage amount for:

- Heart attack
- End stage renal (kidney) failure
- Stroke
- Major organ failure
- Cancer
- Alzheimer's disease

### Receive 25 percent of your coverage amount for:

- Severe coronary artery disease
- Carcinoma in situ (cancer that has not metastasized)

### Skin Cancer is paid once per lifetime at \$250.

### With Specified Disease Insurance, you can:

**Lock in your rate** For example, if you're 35 when your coverage becomes effective, you'll pay a 35-year-old's rate for as long as you have the coverage. If you increase your coverage amount at age 45, you will continue to pay a 35-year-old's rate for that increased coverage amount for so long as you have that increased coverage amount.

**\$100 Annual Cash Benefit** You and each of your covered dependents receive a Health Maintenance Screening Benefit of \$100 once per calendar year when completing one of the 20 tests listed below:

- Abdominal aortic aneurysm ultrasound
- Ankle Brachial Index (ABI) screening for peripheral vascular disease
- Biopsies for cancer
- Bone density screening
- Breast ultrasound
- Cancer antigen 125 (CA 125) blood test for ovarian cancer
- Cancer antigen 15-3 (CA 15-3) for breast cancer
- Carcinoembryonic antigen (CEA) blood test for colon cancer
- Colonoscopy
- Complete Blood Count (CBC)
- Comprehensive Metabolic Panel (CMP)
- Electrocardiogram (EKG)
- Hemocult stool analysis
- Hemoglobin A1C
- Human Papillomavirus (HPV) vaccination
- Lipid panel
- Mammography
- Pap smears or thin prep pap test
- Prostate specific (PSA) test
- Stress test on a bicycle or treadmill

## Important Details

### Eligibility Requirements

To be eligible for this coverage, you must be a Member in good standing with NYSOPBA and actively at work.

You can choose to cover your spouse, a person to whom you are legally married, or your domestic partner (as recognized by law). Child(ren) coverage from birth through age 25 is automatic.

All child(ren) are covered at 50% of the Member's amount. Your spouse or child(ren) must not be full-time Member(s) of the armed forces. You cannot be insured as both a Member and a dependent.

### Coverage Effective Date

If you are not actively at work on the day before the scheduled effective date of insurance, your insurance will not become effective until the day after you complete one full day of active work as an eligible Member. In order to ensure you remain eligible, please contact Norvest at 1-888-869-8252.

### Family Status Change

In the event of a family status change, you and your spouse or domestic partner may enroll for coverage up to the Guarantee Issue Amount without evidence of good health if you or your spouse or domestic partner enroll within 31 days of the change. However, we will not waive evidence of good health if you or your spouse or domestic partner previously submitted evidence and it was not approved.

### Maximum Group Policy Amount

The total amount of all specified disease benefits payable for each covered person will not exceed 500% of the coverage amount for that covered person. This is known as the Maximum Group Policy Amount. Once benefits for a covered person reach the Maximum Group Policy Amount, no further specified disease or additional benefits will be paid for that insured and insurance will end for that covered person.

Subject to the Maximum Group Policy Amount, a benefit for each specified disease is payable only once for each covered person.
